GETTING STARTED

Inside this style guide you'll find the full breadth of options available through Inspira Cabinetry.

Start by choosing a door style, then choose a wood species or surface option, and lastly make your decision on a paint, stain, surface style or specialty finish. Once your selection is made, it's time to make your dream a reality!

WHY INSPIRA

WHY INSPIRA

Inspira Cabinetry is crafted with various styles and budgets in mind. We're determined to provide each customer with a reliable and quality product that not only fits their lifestyle, design, and budget, but also is a product they're able to enjoy for years to come.

We've elevated the most important features of the cabinet and made them standard:

For increased storage capacity and convenience we offer wall cabinets at 13" deep and base cabinets with a 5 1/2" top drawer opening.

For added strength, our drawers are 5/8" solid hardwood with wood dovetail construction, and our cabinet box is constructed using 1/2" plywood sides.

For added ease of access the glides and hinges we use are the industry best Blum brand; these soft-close full-extension glides and 6-way adjustable hinges are rugged enough for decades of daily use.

Lane Inset in Paint Grade Evergreen Fog

WOOD SPECIES

CHERRY

Tucson in Cherry Tawny

The warm elegance of Cherry darkens considerably as it ages. Cherry's fine grain often exhibits swirls and a flowing, random pattern. Its color varies from nearly white to dark reddish brown.

HICKORY

Lansing in Hickory Flagstone

Hickory displays vibrant grain patterns and wide variation in color. Lighter stains make this feature most evident, while darker stains tend to mute it.

MAPLE

Aireal in Maple Cashew

The fine, uniform grain pattern of Maple tends toward lighter colorations. Like all woods, it will darken with age, but to a lesser degree than Cherry. Maple takes on a subtle mottled appearance when finished in darker stains.

PAINT GRADE

Boardwalk in Paint Grade Light Mocha

Paint Grade doors and five-piece drawer headers have a solid, fine-grain hardwood frame. Center panels and slab headers are made of HDM, an engineered wood ideal for paint application due to its superior stability compared to solid hardwood.

WOOD SPECIES

RED OAK

Hillcrest in Red Oak Natural

A time-honored favorite with prominent, distinctive grain character, Red Oak may show tiny rays and flowing patterns. It tends toward warm tones and is very hard with a high shock resistance.

WALNUT

Concordia in Walnut Natural

Walnut has a variable grain, ranging from straight to highly-figured, and color, ranging from tan to dark brown to purplish-gray heartwood, and creamy white to blonde sapwood. A darker stain is recommended when less color variation is desired.

QUARTERSAWN WHITE OAK

Cheshire in Quartersawn White Oak Montana

The quartersawing method yields material with distinctive grain and superior stability. Quartersawn White Oak is also very receptive to glazing, highlighting its unique grain. We use genuine Quartersawn White Oak for face frames, end panels, and coordinating elements like moldings on all Quartersawn cabinetry orders.

RUSTIC ALDER

Sierra shown in Rustic Alder Cashew

Create an environment of authentic warmth and homey charm with Rustic Alder. Featuring Cherry-like grain, Rustic Alder displays visible knots, mineral streaks, and color variation in the door frames and solid center panels.

PAINTS

ColorSelect | ColorSelect Custom

Looking for more options outside of our standard collection? The **ColorSelect** option gives you the ability to choose your exact hue from a Sherwin-Williams fan deck, with more than a thousand choices. **ColorSelect** gives you the ability to coordinate your cabinetry with other painted elements in your home.

Can't find something in Sherwin Williams? Try **ColorSelect Custom**. Pick from any paint brand as long as you provide a suitable swatch or color chip to get things started. Some limitations may apply. Contact your dealer with specific questions

DISTRESSING

Distressing gives a timeworn look to cabinetry, reminiscent of antique furniture. The process creates soft corners and profiles, and subtle, randomly-placed dents. Optional glazing accentuates these features even more.

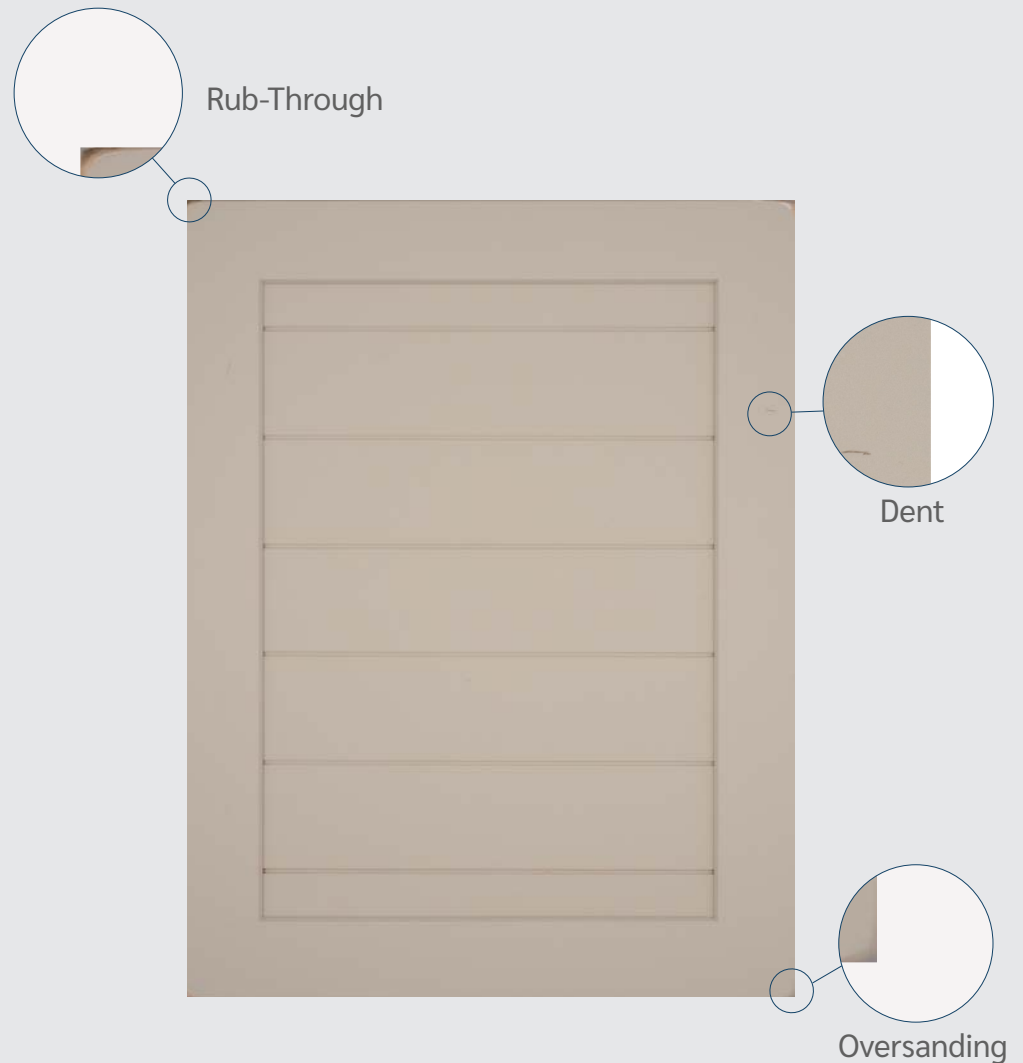

DISTRESSING OPTIONS

Stained Doors

- Dents
- Oversanding
- Dents and Oversanding

Painted Doors

- Dents
- Oversanding
- Dents & Oversanding
- Rub-through and Oversanding
- Rub-through, Dents, and Oversanding

HAND-CRAFTED GLAZING

Glazed finishes highlight detail and create an impression of aging at no additional charge. Glazing is an additional finish step in which a pigmented material is applied to the surfaces, then partially hand-wiped away. Allowing the glaze to “hangup” in areas of detail, adding contrast and depth. Because of the handcrafted nature of glazing, it is naturally variable.

Ivory

Ebony

Oatmeal

Walnut

Pewter

WEATHERED COMBINATIONS

Weathered is a beautiful specialty finish that exudes natural weathered wood from nature's elements. Inspira's multi-step process strips graining and applies an accent color of your choice.

With over **280 combinations** You're bound to find a weathered finish combination for your home that can fit any design style from contemporary to traditional.

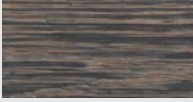

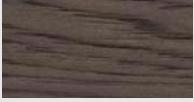

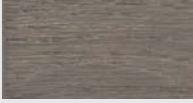

280 FINSH COMBINATIONS

Species	Stains	Accents
Red Oak	Natural	Ivory
Quartersawn White Oak	Cashew	Oatmeal
Hickory	Tawny	Carmel
Rustic Hickory	Khaki	Walnut
Red Oak SG	Montana	Pewter
	Pampas	Ebony
	Midnight	Black
	Flagstone	
	Thunder	

Weathered combinations in the grid are shown in hickory. To see more, work with your designer or order a sample. Color representation is an approximation. Selection decisions should be made based on actual samples

VINTAGE FINISHES

The unique Inspira Vintage offering takes antique character to the highest level. Special Vintage finish techniques include hand padding and dry brushing to create a distinctive impression of elegant aging.

Optional Vintage character elements are achieved through chain distressing with a proprietary Inspira technique, worm holing and worm tracking, chisel and rasp distressing, and over-sanding.
